

Waste Dump in Russia

Case nr: 890322

5420498.2

Ural, Russia

Location: Ural, Russia

Type of waste: Radioactive waste

Suspected illegal activities:

Import of radioactive waste to Russia is prohibited. Uranium tailings are being imported to the country under the label of "material for reuse" instead of waste. In reality, the waste is just being stored, and not always in proper facilities.

Highlights of the protest movement among the local population
